Turn Your Own Fiber Tools!

with Steve Cook

WORKSHOP DESCRIPTION

The class will begin with safety and an introduction to the lathe and tools, then on to making shavings! Spend the weekend creating your very own fiber tools and more! Make your own niddy noddy, drop spindle, nostepinne, diz, crochet hooks, seam ripper, yarn bowl and other fun projects. Learn how to embellish and finish your work. Everyone will progress at their own pace and choose projects that excite them! No previous woodturning experience is needed.

EXPERIENCE LEVEL: All levels are welcome; no prior experience required

MATERIAL FEE: \$50

STUDENT SUPPLY LIST

- Comfortable safety glasses
- Closed toe shoes

INCLUDED IN MATERIAL FEE

- All materials and kits for projects

ABOUT STEVE: Steve Cook discovered woodturning after moving to Savannah, Georgia 15 years ago. He became passionate about this art which led him to become an integral member of the Low Country Turners. He has held the leadership role of president of this club. Steve shares his talent with the youth of the community in hopes of inspiring future wood turners. He does this through hands-on demonstrations at local elementary schools as well as instructing youth at his shop. Steve teaches week-long classes at the John C. Campbell Folk School and has a continuing relationship with Savannah Technical College. He helps students develop their turning skills for their industrial design and furniture projects. In addition, he has assisted in the youth rooms at the Tampa and Phoenix symposiums.
